

Charity - Thanksgiving Day Sea-to-Sky Drive

Monday, October 14, 2019 -- North Vancouver and Squamish, BC

Four BC8's members (Dietmar, Andrew, Kirsti and Henry) and two E31's turned out for the annual Sea to Sky Thanksgiving Drive to Squamish, hosted by the good folks at Classic Car Adventures (www.classiccaradventures.com).

The meet point was Capilano University in North Vancouver where some 130 collector and classic cars assembled for the approximately one hour drive to the picturesque Sea To Sky Gondola in Squamish which overlooks Howe Sound. The weather was perfect, the curvy mountain drive was perfect, and the clear mountain and water vistas were also perfect!

And of course, the cars were fantastic and quite the eclectic assortment-- from Fiats to Ferraris, from BMW's to Mercedes', from American Iron... to well, American Iron. This is really a fun event and the people you meet at the event are true car enthusiasts.

The folks at Sea to Sky Gondola were there to greet us upon arrival, with our group taking up more than their main parking lot!

Andrew, Dietmar and Kirsti chat with fellow classic car enthusiasts at the meet point prior to the drive.

Andrew and Henry pose with their V-12 E31's (North Vancouver, BC).
